

Hi. My name is _____. We just finished your baby's hearing screen. Your baby did not pass the screen today. This does not mean that your baby has hearing loss. But it does mean that your baby needs a further test to tell us if he/she has hearing loss. We have made an appointment to have you bring your baby back for a rescreen _____. We have given this information to your baby's doctor.

Tips:

- ✓ Have the *Hearing in Infants and Young Children* brochure available
- ✓ Give the parents written information with the rescreen appointment date, time, location and phone number
- ✓ Encourage the parents to keep the rescreen appointment
